Russian - Native

# Mikhail Matveichuk

Front-end developer (React/Typescript/JavaScript)

Minsk, Belarus

I have been programming for a year. As a Front-end developer I have made some small projects on React and JavaScript Native. I have acquired experience in managing a small team: I was Team Leader while fulfilling the final project of JS course at RS School. Generally I use TypeScript when I make my projects. I am always ready to work hard gradually improving my hard and soft skills.

I would be happy to become part of your team. Together we would be able to change the world for better.

## EXPERIENCE

### February 2023 - Present

#### OPENLAND SOCIAL NETWORK PROJECT

Team Lead Front-end developer

#### **Tech Stack:**

Client: React JS, TypeScript, SASS, HTML, ESLint, Airbnb, Webpack, ReactComponents, ReactNative (in process), Bootstrap, Material Design
